Lead Product Manager with 5+ years running B2B SaaS products end to end. I turn ambiguous business problems into products people actually use, build the team culture that makes that repeatable, and increasingly build with AI myself to validate ideas faster — from UX & product design roots through Discovery, Product Marketing and no-code.

EXPERIENCE

Sep 2025 – Present

PM & Builder, Product Innovation · Nunsys

Drive the product innovation area: spot new opportunities and build AI-powered products to validate them fast, from idea to working prototype.
